Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election of Species

2. This application contains claims directed to the following patentably distinct species of the claimed invention.

- I. The species as described by the lines 6-12, page 5 of the specification.
- II. The species as described by the lines 13-22, page 5 of the specification.
- III. The species as described by the lines 23-35 and 1-2, pages 5 and 6 of the specification.
- IV. The species as described by the lines 3-16, page 6 of the specification.
- V. The species as described by the lines 17-20, page 6 of the specification.
- VI. The species as described by the lines 21-31, page 6 of the specification.
- VII. The species as described by the lines 32-33 and 1-6, pages 6 and 7 of the specification.
- VIII. The species as described by the lines 7-14, page 7 of the specification.
- IX. The species as described by the lines 15-20, page 7 of the specification.
- X. The species as described by the lines 21-30, page 7 of the specification.
- XI. The species as described by the lines 31-33 and 1-15, pages 7 and 8 of the specification.
- XII. The species as described by the lines 16-26, page 8 of the specification.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is

finally held to be allowable by **specifying those claims believed to be drawn thereto.**

Currently, no claim appears to be generic.

4. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. A telephone call was made to Mr. Martin Fleit to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brij B Shrivastav whose telephone number is 571-272-2250. The examiner can normally be reached on 7 AM to 4 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Diego F. F. Gutierrez can be reached on 571-272-2245. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
